

Bin markers — bars

Settings → Bin Openness → Marker strips → *Bars*. Five black bars, one or two units wide, with one-unit gaps; the widths are measured rather than counted, so this wants the largest print of the three and is the first to fail at distance. All five below are the same rhythm — every bin carries the same strip. Print at 100%, no fit-to-page, matte stock, and cut on the dashed line.
