

Bin markers — dashes, 275 × 20 mm

Settings → Bin Openness → Marker strips → *Dashes*. Set 1 of 2: 5 strips — three bins and two spares — 275 mm long and 20 mm tall, carrying 16 dashes of 8 mm with 13.5 mm of quiet paper at either end. 14 mm of that height is printed; the rest is for the scissors. Every bin carries the same strip — a marker is credited to whichever bin it appears nearest — so these are interchangeable. 14 mm is short of the *Tall* row height at this site's scale, so this set reads on *Thin* — 6 dashes clear, or 88 mm of drawer. Print at 100%, no fit-to-page, matte stock, and cut on the dashed line.

Bin markers — dashes, 275 × 24 mm

Settings → Bin Openness → Marker strips → *Dashes*. Set 2 of 2: 5 strips — three bins and two spares — 275 mm long and 24 mm tall, carrying 16 dashes of 8 mm with 13.5 mm of quiet paper at either end. 18 mm of that height is printed; the rest is for the scissors. Every bin carries the same strip — a marker is credited to whichever bin it appears nearest — so these are interchangeable. Tall enough for the *Tall* row height, which opens once 5 dashes are clear of the counter edge: 72 mm of drawer. Print at 100%, no fit-to-page, matte stock, and cut on the dashed line.
